### Temporary Wall Systems

Room Dividers NY specializes in getting you more living space by leasing temporary walls that turn one room into two.

These walls are similar to any standard wall, except they are not attached with any kind of fasteners or glue. Instead, they utilize pressure, making these temporary walls strong and sturdy, without leaving any damage.

Thus, a one bedroom apartment becomes a two bedroom apartment. Quickly, easily, and without fuss.

We can install these temporary walls just about anywhere. All you need to do is call or e-mail us, give us the measurements of your area and the wall you need, and we'll do the rest.

Our walls can fit just about any configuration or situation, and our

installers are experts. So you need not worry about anything. Installation typically takes less than a day, and you don't even have to be there.

And when we remove the walls, there will be no sign a wall was ever there.

Our temporary pressure walls are the perfect solution anytime you need a little more space.

If you need more living space, contact us at (800) 919-RDNY, and let us install you a temporary wall. You can also e-mail us at [info@RoomDividersNY.com](mailto:info@RoomDividersNY.com), and visit our website at [www.RoomDividersNY.com](http://www.RoomDividersNY.com)

These temporary walls are perfect for anyone who needs to add some private space:

- Roommates and renters wanting to share a living space or an apartment.
- Office buildings that need to add new office space for a limited time.
- Anytime temporarily dividing a room makes sense.

A variety of options are available to tailor the walls to your needs. They include:

- Windows
- Sound Insulation
- French Doors
